(7) SERVICES OFFERED

7(1) Present Investment Objective and Policy:

The Portfolio Manager will offer Discretionary, Non-discretionary and Advisory Portfolio Management Services to its prospective clients after ascertaining their risk profile, investment needs and objectives.

(i) Discretionary Services

The management of the portfolio is of discretionary nature, wherein the choice of investment in securities and the timing of such investment solely rest with the Portfolio Manager. The Portfolio Manager shall have the sole and absolute discretion to invest funds of the clients in such manner and in such industries/sectors/securities as the

Portfolio Manager deems fit. The securities traded or held by the Portfolio Manager in different client's account, even if invested in the same portfolio product, may differ with each client. The Portfolio Manager's decision (taken in good faith) in deployment of the Client's funds is absolute and final and cannot be called in question or be open to review at any time during the currency of the agreement or at any time thereafter except on the ground of malafide intent, fraud, conflict of interest or gross negligence. This right of the Portfolio Manager shall be exercised strictly in accordance with the relevant Acts, Rules, Regulations, Guidelines and Notifications in force from time to time. Periodical statements in respect of client's portfolio shall be sent to the respective clients.

STRATEGIES BEING OFFERED TO INVESTORS UNDER DISCRETIONARY SERVICES:

- Evergreen (Active)
- Harvest (Active)
- Season (Inactive)
- Cedar (Inactive)
- Orchard (Inactive)
- Greenshoots (Inactive)
- Bloom (Inactive)
- Bouquet (Inactive)
- Arth Ritu (Active)

(a) EVERGREEN

Our solid, long term investment product is called Evergreen. The Holy Bible says (New Testament, Galatians 6:7) - 'whatsoever a man soweth, that shall he also reap.' We choose only the sturdiest, evergreen plants that yield sweet fruits - season after season. We take tender loving care of these plants. And they become trees. They come from a solid gene pool, and give a decent harvest in almost all seasons. They can withstand bad weather. These are the plants that we sow for the long term.

Core values underlying the Evergreen Portfolio

Investment philosophy	Capital preservation with solid and steady growth.
Risk appetite	Low.
Strategy	Invest in fundamentally strong scrips available at affordable valuation. Investment in large caps and blue chips.
Investment timeframe	Long term holding.
Use of derivatives	Zero to minimal.
Sectoral bias	Across the spectrum with no particular bias.

(b) HARVEST

Harvest is our 'moderate risk' portfolio. We recognize that some of our investors want a slightly more aggressive investment philosophy to drive their investments. This product offering is driven by the fact that some crops grow quicker than others. Often, they are also more vulnerable and, therefore, need more monitoring. We think you can reap a significantly larger harvest by planting a few crops in our fast-growth farm as well, depending on your risk profile, so that your harvest is larger.

Core values underlying the Harvest Portfolio

Investment philosophy	Take calculated risks and achieve significant growth.
Risk appetite	Moderate
Strategy	Find clearly identifiable growth stocks at an early stage so as to ride the surge in value at the right time.
Investment timeframe	Medium to long term, from 6 to 18 months. Expect some churn arising out of investment review.
Use of derivatives	Minimal.
Sectoral bias	Focus on hi-growth sectors in India.

(c) SEASON

This is our 'opportunistic' investment offering. Sometimes there is an attractive window of opportunity, which lasts for a few months (or sometimes even weeks). As farmers, we are happy to see such short-term changes as they offer us a chance to grow a small crop for you and avail of the opportunity. As soon as the opportunity matures, we encash the crop and wait for another opportunity.

Core values underlying the Season Portfolio

Investment philosophy	Earn higher returns via aggressive exposure to sectors and stocks at the forefront of market momentum.
Risk appetite	Medium to high.
Strategy	Trade in stocks that reflect the short to medium term momentum of the market. Stay in cash if good opportunities are not immediately visible.
Investment timeframe	Short term, typically 3 to 6 months. Expect moderate to high churn.
Use of derivatives	Moderate to aggressive, strictly within allowed regulations.
Sectoral bias	None

(d) CEDAR – Top 100 (Large CAP Funds)

CEDAR is a large cap focused, top 100 stocks (market cap) PMS Product. It is ideal for investors who is risk averse and would like to have a moderate, consistent returns with focus on top quality large cap stocks. Recent reform measures like demonetization, decline in fixed income returns, visibility of strong GDP growth has seen more companies joining the large cap club across consumption and investments, and hence it makes sense for investors who look for safety, capital protection and consistent returns.

Core values underlying the Cedar Portfolio

Investment Philosophy	Capital preservation with investment in large cap blue chip stocks
Risk Appetite	Low
Strategy	Investment in only large caps top 100 companies, targeting value and growth
Investment timeframe	Medium to long term holding
Use of derivatives	Minimal to nil
Stocks and Sectorial bias	Maximum 16 stocks with individual stock exposure of 12% and individual sector exposure of 25%

(e) ORCHARD - Fixed Income PMS (Debt Fund, Liquid Fund, gilt fund, Capital Protection Plan Fund)

ORCHARD PMS is a Fixed Income Investment PMS product which invests in a basket of fixed Income products such as Debt Funds, Certificate of Deposits, Commercial Papers, Corporate Bonds (non SLR), Govt. Securities (SLR), Several categories of Government Bonds, Structure Debt Fixed Deposits Gilt Funds, Liquid Funds, and Capital Protection Funds or schemes within the ambit of Fixed Income Market and Money Market Funds.

As we know Orchards are sometimes a feature of large gardens, where they serve an aesthetic as well as a productive purpose. The idea is to give an HNI investor an option to invest where safety and return are ensured. With increasing High Net worth Individuals and increasing size of corporates, we believe it is necessary for such investors to park part of their earned capital in less risky safe haven. SMIFS ORCHARD endeavors to provide such a haven to the designated investors.

Core values underlying the Orchard Portfolio

Investment Philosophy	To Provide safety and return to investors through customization
Risk Appetite	Very low
Strategy	To select mix of products qualifying as safe and secured fixed income product
Investment	Liquid <1 year or depending on customization of client

timeframe	Long duration > 1 Year
Use of derivatives	NIL
Sectoral bias	Depending on customization of investor

(f) GREENSHOOTS - Startup Fund / Angel Fund

As the name implies, SMIFS GREENSHOOTS PMS target to invest in startup companies. SMIFS Limited's Management is actively associated with Angel Network. In the current crowded space of startup companies, which is likely to get a further boost on support from government and entrepreneurial zeal among the young Indians, SMIFS Limited's Legacy and rich experience plays an important role in identifying the right idea or the startup, for Angel Investors.

We know that not all green shoots survive the difficult environment and only a few live long to bear fruits. Some may not be genetically strong while some may fall prey to other factors. In the current wave of startup era, it is important to identify the right company for investors. SMIFS management and professionals are leaders in the Entrepreneurial Eco-System which enables them to assess the potential risks at an early stage incubation.

Core values underlying the Greenshoots Portfolio

Investment Philosophy	To target companies that crave to create sustainable value, not just valuation
Risk Appetite	High Risk
Strategy	Diversify the risk by investing in at least 8-10 companies
Investment Time frame	5+ years depending upon the several stages of company's growth phase
Use of derivatives	NIL
Sectoral bias	No sector, product or service bias.

(g) BLOOM - Pre-IPO/Unlisted Fund

BLOOM, a PMS product that targets to invest in companies that are looking to list in the near future in the main exchanges or SME exchanges. The appetite has shifted from large private equity and hedge funds to HNI and mid-size corporates who are looking to invest in pre-IPOS. We believe the swift structural changes like GST implementation, e-commerce, increase in the base of formal economy, Unavailability of informal capital and the urge of young entrepreneurs to elevate their social status through market capitalization is all going to play an important role in listing of mid and small size companies. Most companies need to raise a portion of the desired capital through private placements before the IPO is scheduled to hit the market.

Core values underlying the Bloom Portfolio

Investment Philosophy	To invest in companies that meet social and economic objectives, and offer listing gains
Risk Appetite	Medium to High

Strategy	Optimize returns by investing in at least 4-5 companies
Investment timeframe	3-5 years, depending on the company's IPO stage
Use of derivatives	NIL
Sectoral bias	No sector, product or service bias.

(h) BOUQUET – Fund of Funds

BOUQUET PMS invests in a pool of high yielding and growth oriented pool of mutual funds, hence it is a Fund of Funds. The investment team at SMIFS Limited has a Model Fund of Funds which identify and invest in mutual funds based on the profile of the investors. A risk bearing investor in a mutual fund is given the choice to invest in thematic and growth oriented pool of mutual funds. A risk averse and elderly investors are given the choice to invest in safe and balanced mutual funds. A mutual fund investment requires an investor to track the underlying themes, which is usually not in the scope of most investors. SMIFS BOUQUET targets to provide such support to investors.

Core values underlying the Bouquet Portfolio

Investment Philosophy	Offer the right support to investors
Risk Appetite	Medium to low
Strategy	Diversify the risk by investing in at least 5-8 mutual funds
Investment timeframe	2 years and beyond
Use of Derivatives	Minimum to nil
Sectoral bias	Based on profile and need of the investor

(i) Arth Ritu – wealth

The Arth Ritu PMS product is designed to take advantage of turnaround in quality smallcap companies post general elections and across seasons. It is a customer first initiative product in the sense that our focus is in generating wealth for the customer first. The product is designed and meant for a select group of families.

Core values underlying Arth Ritu

Investment Philosophy	To invest in companies operating in sustainable businesses, available at reasonable valuations, capable of generating 25-30% CAGR in the next 3 years
Risk Appetite	Medium to low
Strategy	To invest in quality 10-12 small cap cos, able to generate alpha returns within 18 months compared with benchmark

The Portfolio Manager, with consent of the client, may lend the securities through an approved intermediary, for interest.

(ii) Non-Discretionary Services

The objective is to advise clients on investing in equity, debt, mutual funds and other investments depending on the Client's needs and risk-return profile and/or to provide administrative services for execution of transaction as per the mandate from the client. Under this, the Client will decide his own investments. The Portfolio Manager's role is limited to providing investment advice, research and/or facilitating the execution of transactions.

The Portfolio Manager, based on the Client's mandate and consent, will deploy Client's funds available from time to time. All execution of transactions based on the client's mandate is final and at no point Portfolio Manager's action taken in good faith questioned during the currency of the agreement or at any time thereafter except on the ground of malafide intent, fraud, conflict of interest or gross negligence on the part of the Portfolio Manager. Each client shall receive a periodic statement relating to their portfolio.

(iii) Advisory Services

The Portfolio Manager will provide Advisory Portfolio Management Services, in terms of the SEBI (Portfolio Manager) Regulations 1993, which shall be in the nature of investment advisory and shall include the responsibility of advising on the portfolio strategy and investment and divestment of securities or investment products on the client's portfolio, for an agreed fee structure, entirely at the Client's risk.

The Portfolio Manager shall be solely acting as an advisor to the client where the client is advised on buy/sell decision within the overall risk profile without any back office responsibility for trade execution, custody or accounting functions. The Portfolio Manager shall act in fiduciary capacity towards its client.

7 (1a) Types of Securities:

The Portfolio Manager reserves the right to invest in all permitted securities, instruments and assets as permitted under the applicable Rules and Regulations.

The Portfolio Manager shall acquire Securities through primary acquisition and secondary purchases of target entities ("Portfolio Entity/ies"). These Securities may be listed or unlisted.

The un-invested amount forming the part of the Client's Assets may be at the discretion of the Portfolio Manager be held in cash or deployed in Liquid fund schemes, Exchange Traded Index Funds, debt oriented schemes of Mutual Funds, Gilt Schemes, Bank Deposits and other short term avenues for Investment.

7(2) Investments in Group/Associate Companies:

The Portfolio Manager shall not undertake any investment in portfolio funds in the Securities of any associates/group companies of the Portfolio Manager.

(8) RISK FACTORS

- (i) Investments in securities are subject to market risks which include price fluctuation risks. There is no assurance or guarantee that the objectives of any of the investments made under the strategies will be achieved.
- (ii) Past performance of the Portfolio Manager does not indicate its future performance. Investors are not being offered any assurance or guarantee either that the investment objective of the Portfolio Strategies will be achieved or of any indicative returns or of appreciation of the portfolio or of protection of initial corpus. The names of the strategies do not in any manner indicate their prospects or returns.
- (iii) Investments made by the Portfolio Manager are subject to risks arising from the investment objective, investment strategy and asset allocation.
- (iv) Investments made by the Portfolio Manager are subject to risks arising out of non-diversification.
- (v) The performance in the equity may be adversely affected by the performance of individual companies in which investments are made, changes in the market place and industry specific and macro-economic factors.
- (vi) The Portfolio Manager may make investments in unlisted Securities. This may also expose the Portfolio Manager to an illiquidity scenario since the exit from the Portfolio Entity would have to be a Strategic exit.
- (vii) The debt investments and other fixed income securities may be subject to interest rate risk, liquidity risk, credit risk and re-investment risk. These factors may adversely affect returns.
- (viii) The strategies may use derivative instruments like index futures, stock futures and option contracts, warrants, convertible securities, swap agreements or any other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the regulations and guidelines. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Portfolio Strategies using derivative / futures and options products are affected by risks different from those associated with stock and bonds. Such products are highly leveraged instruments and their use requires a high degree of skill, diligence, and expertise. Small price movement in the underlying securities may have a large impact on the value of derivatives/ futures and options. Some of the risks relate to mis-pricing or the improper valuation of derivatives/futures and options and the inability to correlate the positions with the underlying assets, rates and indices.

- (ix) Technology, pharmaceutical stocks and some of the investments in niche sectors run the risk of volatility, high valuation, obsolescence and low liquidity.
- (x) The Portfolio Manager may, considering the overall level of risk of the portfolio, invest in lower rated/unrated securities offering higher yield. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the executed Agreement.
- (xi) The tax benefits described in this Disclosure Document are as available under the present taxation laws and are available subject to conditions. The information given is included for general purpose only and is based on advice received by the Portfolio Manager regarding the law and practice in force in India and the investors should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Portfolio will endure indefinitely. In view of the individual nature of tax consequences, each investor is advised to consult his/her own professional tax advisor.
- (xii) The investments made are subject to external risks such as war, natural calamities and policy changes of local / international markets which affects stock markets.
- (xiii) The performance of the strategies may be affected by changes in Government Policies, general levels of interest rates and risks associated with trading volumes, liquidity, and settlement systems in equity and debt markets.
- (xiv) In the case of stock lending, risks relate to the defaults from counter parties with regard to securities lent and the corporate benefits accruing thereon, inadequacy of the collateral and settlement risks. The Portfolio Manager is not responsible or liable for any loss resulting from the operations of the strategies.
- (xv) Engaging in securities lending is subject to risks related to fluctuations in collateral value/settlement/liquidity/counter-party.

* 12% Surcharge is levied on incomes above Rs 1 crore. Health and Education cess at the rate of 4 % Note- There are no concessional rates introduced for firms / LLPs in next tax regime.

14(3) Gains on sale of Securities / buy back of listed shares

The characterization of gains on sale of Securities / buy back of listed shares generally depends on characteristics of the securities i.e. whether the same are held as capital assets or stock in trade. If the securities are held as capital assets, the gains could be chargeable to tax as "capital gains" and if the securities are held as stock in trade, the gains could be chargeable to tax as "business income".

In view of the above, income arising on sale of securities / buy back of listed shares could either be characterised either as business income or capital gains, depending on the facts of each individual investor.

14(4) Buy back of unlisted equity shares or preference shares

Section 115QA of the Income-tax Act, 1961 ("ITA") levies a tax of 30% (increased by a surcharge of 12% and Health and Education Cess of 4%) on domestic unlisted companies, when such companies distribute income pursuant to a share repurchase or "buy back". Section 115QA of the ITA defines 'distributed income' to mean "the consideration paid by the company on buy-back of shares as reduced by the amount which was received by the company for issue of such shares". Thus, tax at the rate of 30% (increased by a surcharge of 12% and Health and Education Cess of 4%) is levied on a domestic company on consideration paid by it as reduced by the amount which was received by the company for issue of such shares. As per Section 115QA of the ITA tax on buy-back is payable by a company irrespective of whether income tax is payable on its total income as computed under the ITA. The tax paid to the Indian Government for the buy-back is treated as the final payment of tax and no further credit may be claimed by the company or any other person in respect of the amount of tax so paid. Gains arising on buy back of shares shall be exempt in the hands of investors.

14(5) Business Income

If the gains are characterized as business income in the hands of the investors, then the same would be taxable at as per the tax rates in Clause No. 15.2 as applicable to the person on net income basis. Securities Transaction Tax ('STT') paid would be allowed as a deduction while computing business income.

14(6) Capital Gains

The capital gains would be computed as under:

Sale consideration Rs. XXX

Less: Cost of acquisition (Note 1) Rs. XXX

Less: Expenses on such transfer Rs. XXX

Capital gains Rs. XXX

Note 1: In case of computation of long term capital gains, option of indexation of cost is available to resident on all securities (other than bonds and debentures).

Note 2: The cost of acquisition of bonus shares would be deemed to be NIL.

Note 3: STT paid will not be allowed as deduction while computing income from capital gains.

Tax implications in the hands of domestic investors on sale of equity / preference shares would be as under:

Period of Holding	Characterization	Tax Rate (Plus Surcharge as Applicable and Education Cess at 3%)
12 months or less (in case of listed shares) and 24 months or less (in case of unlisted shares)	Short Term	<ul style="list-style-type: none"> - Tax rates in Clause No. 15.2 as applicable to the person, in case of shares not listed on any recognized stock exchange in India - 15%, in case of shares listed on a recognised stock exchange and the sale / transfer is subject to STT - Tax rates in Clause No. 15.2 as applicable to the person, in case of Preference shares listed on a recognised stock exchange,
More than 12 months (in case of listed shares) and more than 24 months (in case of unlisted shares)	Long Term	<ul style="list-style-type: none"> - 20% (after considering indexation) in case of shares not listed on any recognised stock exchange in India - 10% (without indexation) / 20% (after considering indexation), whichever is less, in case of shares listed on recognised stock exchange but not subject to STT - Nil, till 31.01.2018 and exemption upto 1 Lac, after 31/01/2018 beyond 1 Lac L@10% (without indexation) , in case of shares listed on a recognised stock exchange and the sale / transfer is subject to STT

14(7) Interest Income

Interest income would be characterized as 'business income' or 'income from other sources' depending on whether the debentures are held as 'capital assets' or stock-in-trade. Further, gains arising on redemption of debentures prior to redemption would be treated as interest income. Expenses incurred to earn such interest income would be available as deduction. Interest income would be taxable at the rates in Clause No. 15.2 as applicable to the investor.

14(8) Dividend Income

Dividend declared by an Indian company is taxable in the hands of its shareholders.

14(9) Capital Losses

As per the provisions of the ITA, short term capital loss can be set off against both short term capital gains and long term capital gains but long term capital loss can be set off only against long term capital gains. The unabsorbed short term and long term capital loss can be carried forward for 8 (eight) assessment years.

14(10) Income Stripping

As per Section 94(1) of the ITA, where any person owning securities sells or transfers the same or similar securities and buys back or reacquires those securities and the result of the transaction is that any interest becoming payable in respect of the securities is receivable otherwise than by such owner, the said interest payable, whether it would or would not have been chargeable to income tax apart from the provisions of Section 94(1) of the ITA, would be deemed to be the income of the owner of the securities and not to be the income of any other person subject to certain specified conditions.

As per Section 94(2) of the ITA, where any person has had at any time during any previous year any beneficial interest in any securities, and the result of any transaction relating to such securities or the income thereof is that, in respect of such securities within such year, either no income is received by him or the income received by him is less than the sum to which the income would have amounted if the income from such securities had accrued from day to day and been apportioned accordingly, then the income from such securities for such year shall be deemed to be the income of such person.

14(11) Securities Transaction Tax ("STT")

Delivery based purchases and sales of equity shares traded on recognized Indian stock exchanges are subject to STT at the rate of 0.1% on the transaction value of purchase or sale. Further, STT @ 0.2% on the transaction value is also leviable on sale of unlisted equity shares under an offer for sale to the public included in an initial public offer and where such shares are subsequently listed on a stock exchange.

Disclaimer: The tax information provided above is generic in nature and is subject to change from time to time. The actual tax implications for each Client could vary substantially from what is mentioned above, depending on the facts and circumstances of each case. The Client would therefore be best advised to consult his or her tax advisor/consultant for appropriate advice on the tax treatment of his or her income or loss and the expenses incurred by him as a result of his investment in the Portfolio Management Service offered by the Portfolio Manager.

(15) ACCOUNTING POLICIES

The following accounting policies/valuations will be applied for the portfolio investments of clients:

- (i) Investments in equities will be valued at the closing market prices of the National Stock Exchange of India Ltd. (NSE). If securities are not listed on NSE, then closing market prices of the Bombay Stock Exchange or the other stock exchanges where the securities are listed will be considered for the purpose of valuations. Investments in the units of mutual funds will be valued at latest NAV (Net Asset Value) declared for the relevant strategies on the date of valuation

of portfolio investments. Investments in debt instruments will be valued at the market value of the debt instrument at the cut-off date.

- (ii) Realized gains/losses will be calculated by applying the First in First out (FIFO) method e.g. the earliest purchased quantity will be reckoned for the current/most recent sale at the respective prices.
- (iii) Transactions for purchase or sale of securities will be recognized as of the trade date and not as of the settlement date so that the effect of all investments traded during a financial year are recorded and reflected in the financial statements for that year.
- (iv) For derivative transactions (if any), unrealized gains and losses on open position will be calculated by mark to market method.
- (v) Unrealized gains/losses are the differences between the current market values or NAV at a given date and the historical cost of the securities.
- (vi) Dividend on shares and units of mutual funds, interest on debt instruments, stock lending fees earned etc. shall be accounted on accrual basis.
