### 6 December 2022

The Nifty previous session ended 0.31% down at 18642.75. It opened on a weaker note and remained range-bound towards ending on a flat note. Chart pattern suggesting pullback towards critical resistances may again find sellers. Hence, staying cautious on rise around 18900 levels is advised. Range bound oscillation in the price band of 18500-18950 is likely. Index majors seen making a double top pattern, which is a concern.

On the Nifty hourly chart, massive negative divergence in RSI suggesting the benchmark index may remain stuck in the price band of 18550-18950. Staying cautious on rise is advised.

Nifty patterns on multiple periods suggesting; it ended the day on a flat note. being extremely overbought on daily, the Benchmark Index may see profit booking on rise. Massive resistance is placed around 18900 levels. Hence, staying cautious on rise is advised.

Nifty Crucial Supports & Resistances-Supports- 18550, 18400 Resistances- 18920, 18950

## Maruti Suzuki to recall 9,125 vehicles to fix possible defects in seat belts

Maruti Suzuki India will be recalling 9,125 units of its models Ciaz, Brezza, Ertiga, XL6 and Grand Vitara to fix possible defects in a part of the front row seat belts. The affected vehicles were manufactured between November 2-28, 2022. It is suspected that there is a possible defect in one of the child parts of shoulder height adjuster assembly of front row seat belts, which in a rare case, may lead to seat belt disassembly. The company said it has decided to recall the suspected vehicles for inspection and replacement of the faulty part, free of cost.

## Upskilling and reskilling will boost the FMCG sector at a faster pace

Post pandemic, consumers are switching to more eco-friendly products driving FMCG companies to look at progressive models as a future necessity to minimize the environmental effects. Speed and agility are a must to succeed however this needs to translate across all elements of the organization for long term success. There is also a need to focus on creating sustainability and become environmentally friendly in the long run.

### Global airline industry to post USD 6.9 billion loss in 2022

The global airline industry is projected to report a lower loss at USD 6.9 billion in 2022, mainly due to stronger passenger yields and cost control by carriers amid rising fuel prices, according to industry body IATA. In June, the International Air Transport Association (IATA) projected the industry loss at USD 9.7 billion. In October 2021, it forecast a loss of USD 11.6 billion for this year. After being significantly impacted by the coronavirus pandemic, the airline industry is on the recovery path. In 2022, airline net loss is expected to be USD 6.9 billion. This is significantly better than loss of USD 42 billion and USD 137.7 billion in 2021 and 2020.

## Oil merchants troubled by trading norms that don't fit price cap

The oil price cap that the Group of Seven nations imposed on Russia may finally be in place, but it's yet to convince one vital group of people: the traders who can help get the supplies onto the global market. Any company wanting to access G-7 services -- particularly European insurance and ships -- to move Russian oil can only do so if they pay \$60 a barrel or less for the cargo. The initiative is aimed at punishing Kremlin for the Ukraine war by curbing oil revenue while maintaining exports. The US pushed for the measure as a way of softening European Union sanctions that threatened a far bigger supply disruption and surge in prices. Now the market is trying to figure out what effect the cap will have. But the measure is troubling traders because it doesn't fit with how physical crude shipments are purchased and valued in the real world. This is creating challenges around risk management, which have only been exacerbated by wild swings on a daily, weekly and monthly basis since the war.

## Airtel launches 'World Pass' - One pack for travel across 184 countries

India's second largest telco Bharti Airtel has revamped its international roaming offerings under the newly launched WorldPass which enables IR services in 184 countries. Until now, telcos had different offerings and packs for different countries. As the worst effects of the COVID-19 pandemic ebb, there has been a massive surge in international travel both for work and leisure. India has seen the number of international travellers this year increase three times this year, which is likely to double next year.

## India's steel ministry seeks import tax waiver for coking coal- Sources

India's steel ministry has asked the finance ministry for a waiver of import tax on coking coal among a slew of raw materials, as it scrambles to fill a shortage of steelmaking ingredients. The proposal to scrap levies ranging from 2.5% to 7.5% in the world's second biggest producer of crude steel comes ahead of the national budget for 2023/24 set to be unveiled in February. The ministry's plan to scrap the tax on limestone, manganese ore, steel scrap, graphite electrodes, chrome ore, and ferro nickel, in addition to coking coal, has been sent to the finance ministry. If agreed, the tax waiver on the raw materials would cost about 37 billion rupees (\$449 million). Spokespersons of the steel and finance ministries did not immediately reply to an email from Reuters to seek comment. Imports of coking coal meet about 85% of India's annual requirements of about 50 million to 55 million tonnes. Australia is India's top supplier, and a free trade pact between New Delhi and Canberra that takes effect from Dec. 29 allows duty-free imports of coking coal by India.
